About us

Cotoland d.o.o. was founded in 1999, in Sabac, Serbia. Currently, we are an absolute leader in northwest Balkan when it comes to cotton buds production for private label. Main focus is on domestic market, but we are also producing for the biggest retail chains in the region. Private label brands that we cooperate with are available in more than 15 EU countries. To mention that our products are available in African, Southamerican, and Asian market as well. We distribute our products to former Yugoslavian countries through our brand "Leny".

The countries we export: Italy, Germany, Slovenia, Vietnam, Jordan, Poland, Bulgaria, Hungary, Czech Republic, Slovakia, Montenegro, Croatia, Bosnia and Herzegovina, Ukraine, Macedonia, Kosovo and Metohija.

Our production is divided into 3 separate categories: cotton buds (ear hygiene), cosmetic care(cotton pads and cotton wool), and HORECA program. Primarily, our focus is on cotton buds production for private brands(labels). We can do a wide variety of packaging, many different products and combinations with focusing just on cotton buds. On the other hand, we have a large capacity for cosmetic cotton pads production as well. Besides, we recently developed cosmetic cotton wool production, and HORECA program production.

Cotoland's strategy is primarily based on the quality of our products, quality of the delivery and complete logistics. We have the most modern high-capacity equipment for manufacturing cotton buds including the following processes: extrusion (plastic stick and paper stick), injection molding (plastic box and plastic lid), and a sector for producing cotton buds.

Moreover, we recently developed new production sector in order to manufacture 100% biodegradable cotton buds (paper stick and paper box). Furthermore, we also have sectors for producing cosmetic cotton pads and cosmetic cotton wool.

For the past 10 years, Cotoland has been present at the biggest private label fair in the world, PLMA in Amsterdam, Netherlands. We exhibited all of our products as well as our own brand "Leny". Above all, partaking in the biggest private label fair in the world makes us proud and honored. To mention that we are happy to show our complete transparency to our current and future customers.

In addition, our belief is that keeping up with the latest trends and technology in the market is the key in building strong relationship with our customers. Honesty, integrity, and good work ethic are holding us ranked up high in the market, where we belong.

OUR PRODUCTS

Cotton Buds

Cotton buds are one of the most versatile hygiene items that exist in your home. You use them to clean your ears and makeup, and they can always easily be in hand when you need them.

Biodegradable cotton buds are created to easily be broken down in nature once you are done using it. They are 100% plastic free, which makes them a perfect environmentally friendly product. Also, paper sticks are usually made of 100% cellulose paper, so you can throw them away with no regrets after you are done using it.
